TO FIGHT RAISE IN READING RATES

New Excursion Rates between Harrisburg and Gettysburg to be Matter for Agitation. Capitol City Leads Campaign.

A vigorous campaign to secure the lowering of the recently increased excursion ticket fares between Harrisburg and Gettysburg has been launched at the former place where help is expected from the business men of this town. The fight is being championed by the Harrisburg Telegraph which says in speaking of fares between Gettysburg and Baltimore:

"The Western Maryland Railroad Company runs dollar excursions to Baltimore, 72 miles away, while the Reading charges \$2.10 the round trip between Harrisburg and Gettysburg, 47 miles. It is held that the contention of the railroad is disproved by the fact that when a Gettysburg Sunday School did four years ago procure a rate of \$1 the round trip from that place to Harrisburg, seventeen cars were required to carry the people who wanted to take advantage of it."

"Whatever is to be done must be done quickly, as the schedule committee of the Reading system, which settles all service problems and fixes all rates for the year, will meet in Philadelphia early in April, and it is necessary to have the matter ready to submit to them."

Editorially the same newspaper makes the following comments:

"If the Central Pennsylvania territory is to be developed in accordance with the dream of the Harrisburg Civic Clearing House and allied organizations which have the interests of this section at heart, railroad fares to surrounding small towns must decrease, rather than increase."

"We regard the recent increase in round trip fares on the Reading lines out of Harrisburg as something which would be akin to a local commercial calamity if the railroad authorities should remain indifferent to protests of merchants and boosters."

"Just at the moment when we are exerting every effort to get closer to our neighbors along comes the railroad company and shoots them a little farther off."

"Take, for example, Gettysburg. The Merchants' Association of that historic old town was genuinely interested in the Clearing House plan. The correspondence that passed between members of that organization and officers of the Clearing House was more than desultory. The Gettysburgers said they were in favor of transferring to Harrisburg the trade which from time immemorial had been going to Baltimore."

"One of the obstacles in the way was the high railroad fare of \$1.80 the round trip. To be sure, the round trip fare to Baltimore is slightly larger, but it is much lower in proportion to the distance traveled, and the Gettysburgers who went to Baltimore to do his city shopping felt that he was getting greater value for his money from the railroad company."

"Give us excursions and cater to us from a transportation point of view, as Baltimore does," said the Gettysburg man, "and Harrisburg will soon be what it ought to be—the trade center of this section of Pennsylvania."

"But now, instead of holding out more inducements, we raise the barrier a little higher. The round trip fare between Harrisburg and Gettysburg is \$2.10 instead of \$1.80."

"The company's attempt to justify itself by calling attention to the fact that, although the excursion rates are higher, the time limit of tickets has been extended from two days to ten, will fall very flat. What Harrisburg wants from these outlying districts is the daily trade, not summer vacationists, and what the outlying districts want from us is the one day excursion opportunities now afforded them by other cities."

CLASS PLAY

Friday night at 8 o'clock the Sophomore class of college will produce "The Member of Parliament," a comedy in four acts at Bruns Chapel. This is the annual play given by the Sophomore class and should be on a par with previous productions. "Shorty" Reed, who made such a hit in the Y. M. C. A. play, will carry the leading role with Miss Sheely, together with Miss Weaver, Fisk, Kramer, Dapp, Wolf, Sutcliffe and Noren. Music will be furnished by the College Orchestra.

FOR A BETTER MAIL SERVICE

Parcels Post for Adams County and Free Delivery of Mail in Littlestown and New Oxford to Follow Passage of Bill.

Parcels post on the county rural routes and the free delivery of mail by carriers in Littlestown and New Oxford will follow the passage in Congress of the post offices and post roads appropriation bill reported in the House this week.

The enactment of the bill will give the farmers, merchants, and other patrons on all the rural routes in Adams County a greatly reduced rate of postage on merchandise; and enable the residents of two of the larger boroughs in this county to have the same mail service as is at present enjoyed by the patrons of city offices.

The bill as at present framed provides as follows:

"That on each and all rural delivery routes of the United States the postmaster at the starting point of such route shall until June 30, 1914, receive and deliver to the carrier or carriers of said routes all articles, parcels or packages not prohibited to the mails by law and falling under the definition of fourth class matter and not weighing in excess of 11 pounds, for transportation and delivery on said routes only; and the carriers shall receive at intermediate points on all routes such mail matter of the fourth class for delivery on their respective routes only."

"That postage shall be paid on all articles, parcels, or packages entitled to transportation under the provisions of this act as matter of the fourth class on rural mail delivery routes only at the following rates: One cent for each two ounces or less, two cents for more than two ounces but not more than four ounces, three cents for more than four ounces but not more than eight ounces, four cents for more than eight ounces but not more than 12 ounces, five cents for more than 12 ounces but not more than a pound and two cents per pound for each additional pound or fraction thereof up to and including a total of 11 pounds." The bill also provides for the reduction of postage of fourth class matter from 16 cents to 12 cents per pound and raising the weight thereof from four to eleven pounds. This will be the same as the foreign parcels post rate as has been fixed between this country and the majority of the foreign countries by parcel treaties.

The extension of the free delivery mail service in larger boroughs is to be provided for by the government by enabling the postmaster there to employ necessary assistance to deliver mail in the boroughs.

Littlestown and New Oxford will be the two offices in the county to receive this service if the bill passes.

M'SHERRYSTOWN TOWN MEETING

Citizens of East End Town Meet to Discuss Proposed Raise in their Water Rates. Vote Contribution for Campaign.

A public mass meeting was held in the Union Opera House, McSherrystown, for the purpose of taking some action in regard to the proposed raise in rates of the Hanover and McSherrystown Water Company. Practically all the property holders in McSherrystown were present, also a number of voters.

A communication from the committee appointed by Burgess Sheely, at the mass meeting in Hanover, several weeks ago, was read by F. X. Weaver, president of the town council. It asked the McSherrystown council for an appropriation of \$100 to be added to the fund being used to gather testimony and facts, later to be placed in the hands of a firm of corporation lawyers, in an effort to resist the proposed change in rates, and further determine the legal rights of the company, in their operations in the borough. Mr. Weaver stated that the council as a body did not want to take any action unless sanctioned to do so by the property holders.

Without further discussion, by a rising vote, the councilmen were authorized to make the appropriation.

Thomas F. Chrostwaite, Esq., of Hanover, counsel for the borough of McSherrystown, was present, and told of the great headway that has been made in Hanover since the mass meeting in that place. He also gave the history of the McSherrystown Water Co. On March 29, 1898, the McSherrystown Water Company was incorporated, and March 24, 1895, was sold to the Consumers Water Company of Hanover. He continued by saying that the Consumers Water Co., now the Hanover and McSherrystown Water Co., does not have an exclusive franchise in McSherrystown, and there would not be any obstacle to prevent McSherrystown and Hanover in jointly owning a municipal water works, as under an act of Legislature two boroughs or one borough and a township can jointly own a municipal water plant.

Mr. Chrostwaite stated that hundreds of letters have been sent out to nearly all the towns in Pennsylvania and a large number throughout the United States, and from statistics gathered it is shown that the rates where municipal plants are located are much lower than the rates of water plants owned by private corporations.

F. X. Weaver will circulate an individual subscription list for funds to continue the campaign among the merchants, property holders and business men, and judging from the enthusiasm displayed, little trouble should be experienced in collecting an additional appropriation.

CHARGED WITH CRUELTY

High Constable Duttons on Wednesday arrested Howard Milheims, of Conewago township, on a warrant issued by Squire L. D. Sell, Hanover, charged on oath of Dr. R. J. Russell, representative of the Society for the Prevention of Cruelty to Animals with cruelty to animals. It seems that on the night of February 14th the defendant used the whip in a violent manner on a horse. Milheims states that he was driving a balky horse and was compelled to do what he did. He entered bail for a hearing.

EXTRA DUTY OF CARRIERS

The city carriers of the Gettysburg postoffice have more than their customary duties during this week.

They count each piece of mail delivered, the number of stops made by them, the possible number of stops they might have made and weigh each class of mail delivered.

Along with this the time they consume in putting up the mail is kept and at the end of the week there will be a making up of all the totals and a striking of averages.

Then it will be possible to tell the daily average office time of the carrier, the average weight, in pounds, of mail delivered daily by each carrier, the average number of pieces of mail delivered daily, the average number of stops made daily and average number of possible stops.

There will also be computed the percentage of residences and business houses provided with mail receptacles and the actual number of deliveries to them.

WILL ASK PARDOONS

One final effort to save Leonidas Gilbert, slayer of Daniel K. Miller, from the gallows on March 24, is to be made at the March session of the Board of Pardons. Application was filed Wednesday by Attorney Clarence Funk for commutation of sentence to life imprisonment.

Similar application was made by John Hoke, of Chambersburg, for William Reed who is sentenced to be hanged this month for the murder of Sara Mathna at Mont Alto.

\$200,000 Worth of Stolen Gems Returned to Countess Szechenyi.

Vienna, March 7.—The newspapers here print a story to the effect that jewels to the value of \$200,000 were stolen from the residence of the Countess Szechenyi, formerly Miss Gladys Vanderbilt, at Budapest last week.

A detective found the jewels wrapped in a newspaper where they had been hidden in a garage attached to the house. Countess Szechenyi sent a check for \$50 as a reward for the detective who had discovered the jewels.

TAFT DEFY TO HOUSE ON TARIFF BOARD

Will Force Issue by Asking For Appropriation.

Washington, March 7.—President Taft will put the tariff board issue squarely up to congress—or rather to a Democratic house.

In his message which will accompany the report of the tariff board on the cotton schedule he will ask for an emergency appropriation which will permit the board to go ahead promptly with its labors.

The president will urge as important that the field work of the board be carried on and will point out that it is now almost out of funds and has been obliged to withdraw all its field men and let many of its employees go.

The president will point out that this is a good time to be investigating the facts as to the steel and metal schedule; that the board has preliminary data, and that if an emergency appropriation is allowed for the rest of this fiscal year much can be achieved.

The tariff board, in other words, is on the edge of dissolution unless the house comes to its rescue with funds— which the house will probably refuse to do.

REFUSES IMMUNITY

Mitchell Declines to Dodge Contempt Charge.

Washington, March 7.—Declining to accept what Justice Wright intimated might be immunity from further proceedings in the renewed Bucks Stove & Range company contempt case if he apologized for past actions, Vice President John Mitchell, of the American Federation of Labor, stood pat on his testimony.

"I would feel more contentment if convicted, conscious of the rectitude of my course and the truthfulness of my evidence, than if acquitted on any other grounds than the facts as they have been presented and the law as it has been enunciated by the higher tribunal," he said in a letter to Justice Wright.

CAPT. SCOTT AT SOUTH POLE?

An Unconfirmed Rumor Stirs London.

HIS WIFE HAS NO NEWS

Four Other Expeditions Are Also Making the Same Quest, But British Naval Officer Is Reported to Have Been First to Arrive.

London, March 7.—London is in a furore of excitement over a rumor published in an evening paper that Captain Robert F. Scott, the British Antarctic explorer, has reached the South Pole.

Mrs. Scott declares that she has heard nothing from her husband and there is no confirmation obtainable from any source.

Officials of the Royal Geographical society stated that they had heard the rumor that Captain Scott had defeated the Norwegian, German and Japanese Antarctic expeditions, but that they had received no confirmation and that they doubted its authenticity.

Though not prearranged, the South Pole hunt was international in character, the race being between Captain Robert F. Scott, of the British royal navy, and Captain Hjalmar Amundsen, the noted Norwegian explorer. Other expeditions tried to get into the race, but were overawed at the dreary wastes of snow and ice stretching out before them as they forged their way into the waters of the Antarctic ocean.

In addition to the Scott and Amundsen parties is one headed by an Australian, Dr. Mawson, who was one of the members of the Shackleton expedition. The vessel used by him is the Aurora, which left Australian in November, 1910.

The German Antarctic expedition under the leadership of Lieutenant Wilhelm Filchner, of the Bavarian army, sailed on board the steamer Deutschland from Buenos Ayres on Oct. 5 last year.

A Japanese expedition under Lieutenant Shirase left for the south on board the Kikan Maru from Sydney harbor on Nov. 20 last year.

It was on June 1, 1910, that the Terra Nova, an old Dundee whaler, built some twenty-eight years ago, but later refitted and remodeled for Captain Scott's expedition into the Antarctic, left London for the unknown lands to the south. It was considered the best equipped of all the British South Pole expeditions, and carried away from London sixty men in all, with stores for three years.

Captain Scott's powerful motor sledges constituted an important feature of his equipment. This sledging, which was first subjected to severe tests in Norway, proved itself capable of covering from two to three and a half miles an hour under most rigorous conditions, and Captain Scott expected it to prove a most valuable aid in his struggle over the Antarctic ice.

FOSS SEES RICHESON

Governor of Massachusetts Visits Jail at Boston.

Boston, March 7.—Clarence V. T. Richeson had a brief conference in the Charles street jail with Governor Foss and eight members of the executive council, who alone can prevent the former pastor's execution for the murder of Avis Linnell, his former fiancée.

Richeson made no plea for commutation.

CHILD SWALLOWED RIVET

Pottsville, Pa., Girl Dies in Philadelphia Hospital as Result.

Philadelphia, March 7.—Having swallowed a steel rivet she was playing with, Ethel Anderson, colored, six years old, of Pottsville, Pa., died in the Jefferson hospital.

The rivet had lodged in the little girl's bronchial tubes and she was unable to breathe. She had been in the hospital several weeks and underwent an operation.

Murderer Confesses.
Harrisburg, Pa., March 7.—Harry A. Claybaugh, who is to be hanged here for the murder of Mary Gandy in this city last summer, made a confession declaring that the killing was the outcome of a suicide pact, which he declared the woman declined to keep. He tried to kill her with a revolver, which missed fire, and then cut her throat with a razor. In slashing the woman, he says, he broke it, and this prevented him from killing himself.

To Graduate in Gingham.
Wilkes-Barre, Pa., March 7.—Daughters of rich residents of West Pitts on, the home of many millionaires, will be compelled to receive their graduation honors in cheap gingham gowns this year. This action was decided upon by the school board, after Director William Berry had fought to place all graduates on the same basis when it came to purchasing gowns for their graduation.

Congressman Sinks After Operation.
Pittsburg, March 7.—Congressman Charles Matthews, of New Castle, Pa., is in a serious condition in a hospital here, the result of an operation performed three weeks ago. It was supposed that Mr. Matthews was recovering from the effects of the operation, but conditions have developed which cause anxiety to his friends.

W. H. DINKLE.
GRADUATE OF OPTICS
will be at Penn-Rose Myers' Jewelry Store, every Tuesday. Free examination of the eyes.

WANTED: a girl or middle aged woman to do general housework in family of two. H. P. Mark, Arendtville, Pa.

WOMEN'S WAR FUND TAKEN

Will Be Used to Reimburse Those Whose Property Has Been Damaged.

London, March 7.—It was reported that the government had captured the war fund of the suffragettes. The fund amounts, according to some reports, to \$500,000.

The authorities declare that the fund will be used to reimburse those whose property has been damaged by the militant suffragettes during the past few weeks.

In pursuance of the determination of the government fully to test the efficacy of the existing laws to deal with the latest tactics of the militant suffragettes before resorting to special legislation to make the funds of the suffrage societies liable for damages done by their members, the police raided the offices of the Women's Social and Political Union, in Clement's Inn.

They arrested Mr. and Mrs. Frederick Petrick Lawrence, joint editors of "Votes for Women," who were taken to the Bow street police station. They took possession of the offices.

The leaders of the union are charged with being responsible for the latest window smashing campaign. They will presumably be tried under the conspiracy laws.

Mrs. and Mrs. Lawrence and Mrs. Emmeline Pankhurst and Mrs. Tuke, the last two of whom were brought from Holloway jail, were arraigned at the Bow street police court on a charge of conspiracy and inciting to commit malicious damage to property. The four prisoners were remanded for a week.

KNOX'S VISIT CAUSES OUTBREAK

Fifty Nicaraguans Jailed Until He Departs.

Managua, Nicaragua, March 7.—An extraordinary outbreak of anti-American feeling led to the arrest of fifty of the more prominent ringleaders, who are being held until Secretary of State Knox has departed.

This is the first indication publicly expressed of opposition to the Central American trip of the secretary of state. Secretary Knox was present at a special session of the congress in San Juan del Sur, when the chairman, Senor Suarez, delivered an eulogistic speech.

The persons arrested include the whole of the editorial staffs of the Diario de Nicaragua and of the Diario Moderno, which had published a number of letters and placed head lines over them, suggesting that dynamite should be used against the state secretary. All dispatches leaving the city are subjected to keen censorship.

The friendliest feeling appears to prevail among the crowds upon the streets. Dressed in their holiday attire, the people are giving themselves up to the enjoyment of the numerous festivities.

ALEXANDRA'S STATE SERIOUS

Does Not Make Recovery Her Doctors Expected.

London, March 7.—Queen Alexandra, who has been ill with influenza for several weeks is not progressing as speedily toward convalescence as her physicians expected. Disturbing rumors here say her condition is very serious.

Girl Dies of Burns.

Pittsburg, Pa., March 7.—Julia Sitzkowski, ten years old, is dead, the result of burns received when her clothing caught fire from burning waste paper. A twenty-year-old sister is fatally burned, and the mother of the girl is in a serious condition, due to their attempts to rescue the burning child.

Many Killed by Tidal Wave.
Victoria, B. C., March 7.—News comes by the steamer Makura of disastrous hurricanes in the Fiji and New Caledonia groups. Many lives and vessels were lost. At Noukulufo every launch in the harbor was wrecked and half the town was destroyed, many being drowned by tidal waves which followed the blow.

Made Wooden Keys; Escaped Jail.
Lacrosse, Wis., March 7.—John Ploish, under sentence of two years for attempted murder, and John Crowley, under sentence of two years for forgery, broke jail at Sparta, Wis., and escaped. The two opened three locks with keys they had made out of wood.

WILLIAMSPORT, MARYLAND

T. R. ANSWERS STIMSON

Opens Up With Denunciation of Secretary and Taft.

WANTS PRIMARIES TO DECIDE

Colonel Declares He Was Forced Into Arena by "Machine" Politics and Wants No Man's Support For Office.

Mineola, L. I., March 7.—The speech of Secretary of War Stimson in Chicago supporting President Taft for the Republican presidential nomination and expressing regret that Colonel Theodore Roosevelt had been brought into the contest, brought from Colonel Roosevelt a vigorous reply.

"In regard to Mr. Stimson's statement that against my original intention I am being forced by certain persons into the arena this year, I need merely say," declared the colonel, "that the statement is correct only in the sense that it would be correct to make the same statement as to my advocacy of Mr. Stimson for governor in 1910.

"In that contest, as in this, I was extremely reluctant to be drawn in. In that contest, as in this, I acted only from a sense of duty to the people as a whole, and in that contest I was assailed with precisely the same arguments by the great majority of those who are now assailing me.

"If I had considered only my own personal interests and personal preference, I should, of course, have kept out of the 1910 campaign, have let the machine remain in control at Saratoga and seen the state go Democratic by 300,000 majority, as under those circumstances it certainly would have done.

"I went in because I conscientiously felt that it was my duty to take part in the fight for honest government, for genuine self-government by the people, without regard to the consequences to myself, and I am in this fight on precisely the same basis, and for precisely the same reasons.

"Let me add, in view of the questions of certain friends, that neither Mr. Stimson nor any other man whom I have supported for public office owes me any gratitude for doing so; I support a man, not to get his gratitude, but because I believe he will render good service to the people; and I ask nothing from any man in return except that he render such service to the people, and I judge him accordingly.

"As for the question concerning who are forcing me into the arena, the answer is easy. Which side is making the demand for open primaries, and which side is stifling this demand wherever possible, and I am in this fight to it save under compulsion and trusting to the use of patronage, such methods as those tried in the recent Kansas City congressional convention, and to those very machine leaders who have turned a complete somersault as regards the president during the last four years?

"These leaders are managing the campaign against me, and if they were deliberately trying to wreck the Republican party they would follow precisely the tactics they have been following—tactics which make it seem that they would rather see the Republican party defeated than see it restored to what it was under Lincoln, and see it become again the genuine party of the people, the party that stands for real popular rule, and for the highest ideals of social and industrial justice, to be achieved through popular rule.

"We stand for direct, presidential preferential primaries everywhere, in Massachusetts, in Illinois, in New York (for in New York the present primary law, passed by the machines of the two parties, is expressly designed to prevent either party from escaping the control of the professional politicians, and from falling under the control of the people). If our opponents wish the people to have their say, let them support real primary bills.

"If in open primaries without coercion or fraud, without pressure brought by the use of patronage or by the promise or by the withholding of patronage, the plain people of the Republic wish me to be nominated, then most certainly I do not wish the nomination; if they declare that they do wish it, not in my interest, but in the interest of the people as a whole, then as I have already said, I will accept and will strive to serve the people with all of whatever powers I possess."

FINDS JERSEY FOR TAFT

Hilles Announces That Nearly All Republican Legislators Are For Him.
Washington, March 7.—According to an announcement made by Charles D. Hilles, secretary to the president, the eleven Republican state senators of New Jersey are for the renomination of President Taft.

Of the thirty-five Republican assemblymen from New Jersey, thirty-two have announced said, are for Mr. Taft's renomination, two are non-committal and one is opposed.

MINERS MAY MODIFY DEMANDS

Will Probably Ask For Series of Conferences.

SILENT ABOUT SUPPLY

Operators Issue Statement Accusing the Retail Dealers of Raising Coal Prices.

New York, March 7.—The flat rejection of the demands of the anthracite miners by the coal operators is expected to be followed by the submission of modified demands on the part of the mine workers.

A committee of coal operators will, at the conference with the miners next week, submit their reply to the miners rejecting their demands.

The mine workers had expected that the demands would be refused, but that the operators would offer a counter proposal.

Many of the operators, however, believe that the mine workers will submit modified demands and ask the operators to join with them in a series of conferences, so that a settlement may be reached and a strike avoided when the present working agreement expires on March 31.

President White, of the mine workers, has said that the men would quit work the minute the agreement expires. Mr. White and his associates said previous to the conference last week that they expected that the demands would be refused.

The operators are keeping close-mouthed on the question of the supply of coal on hand in case of a strike. Some dealers, it was reported, have already marked up the price of anthracite and bituminous coal, though the larger companies say no advance in price has been made.

The following statement was authorized by the anthracite operators:

"In view of the reported advances in prices of anthracite it should be stated that these are not made by the operators, but by retail dealers. The wholesale prices of prepared or domestic sizes of anthracite have remained substantially constant for nine years."

WORKMAN BLOWN TO BITS

One Killed and Four Hurt in Chemical Factory Explosion.

Wallington, N. J., March 7.—A man was blown to bits and four others were badly injured by being hurled through windows by an explosion in the Anderson Chemical company's works.

The two-story brick building took fire immediately and was entirely destroyed before the arrival of the volunteer firemen. The loss is estimated at \$50,000.

In the room where amyliacetate acid and soluble cotton was made were five men. Attending the fifteen gallon draining tank was Andrew Dolak, a Pole. When the explosion occurred he shot toward the roof, and parts of his body was found in the open field. One leg was picked up more than 100 feet from the building.

The other four were picked up unconscious fifty feet from the building and were badly injured.

VOTE ON TREATIES TODAY

Senate to Act on Arbitration Pacts Late This Afternoon.
Washington, March 7.—The senate will begin voting on the arbitration treaties with Great Britain and France at 4:30 o'clock this afternoon.

The first vote will be on the foreign relations committee's amendment to strike out of the treaties clause three of article three, on which the opposition has been centered, on the ground that it delegates the treaty-making power to the proposed joint high commission of inquiry and that the commission's acts would be binding on the senate.

This is the critical point for the treaties, but their supporters express confidence that they will pass safely.

Gets Black Hand Letter.
Northampton, Pa., March 7.—This borough is much excited over a Black Hand scare, in which a mysterious masked man delivered a letter to Samuel Wenrick, a foreman for a cement company. The letter demanded that Mr. Wenrick place \$1000 on the Coplay bridge or "Leave that Woman." It was signed with a black hand and skull and cross bones.

Child Labor Violations Alleged.
New York, March 7.—One hundred and forty warrants and summonses were issued for individuals and corporations in New York city who are charged with employing children under sixteen years of age from eight and one-half to fourteen hours a day in violation of the child labor law.

Close Steel Tariff Hearing.
Washington, March 7.—The senate finance committee closed its hearings on the house steel tariff bill. It is expected that the committee will content itself with the formality of adversely reporting the bill instead of attempting to draft a Republican substitute.

NAVAL MEN ON ALERT

Watch With Interest New Type of Oil Burning Submarines.

New York, March 7.—The new submarines E1 and E2 which arrived at the Brooklyn navy yard from Newport, steamed out to sea again on their way to Norfolk.

The voyage of these fighting craft is attracting interest among naval men throughout the world, as they are the first to be equipped with the Diesel oil burning interior combustion engines and are also the first submarines to be equipped with wireless apparatus. They will keep in touch with each other and with land stations by wireless during the voyage to Norfolk.

Lieutenant C. W. Nimetz is in command.

Body Was Found in Ohio River at Pittsburg.

Pittsburg, March 7.—The morgue ambulance was temporarily turned into an ice wagon. Its cargo was a huge cake of ice taken from the Ohio river. Frozen in the ice was a man's body, which was discovered by two ferry men. It is thought the ice and body came out of the Allegheny when several gorges went out a few days ago.

Deserters May Receive Citizenship.

Washington, March 7.—The house passed a bill granting to the president power to set aside the loss of citizenship now imposed on deserters from the military service. It confines such clemency, however, only to those of fenders who avoid or escape military or naval service in times of peace.

Shot School Commissioner.

Wilmington, March 7.—Because he had been expelled from the school at Summit Ridge, Joseph Powell, fifteen years of age, shot Charles Fox, a school commissioner. Fox will recover. The boy was arrested and fined \$10.

THE BEST PROOF

Gettysburg Citizens Cannot Doubt It. Doan's Kidney Pills were used—they cured.

The story was told to Gettysburg residents. Time has strengthened the evidence. Has proven the cure permanent. The testimony is home testimony. The proof convincing. It can be investigated by Gettysburg residents.

Mrs. T. C. Biddle, 68 E. Middle street, Gettysburg, Pa., says: "Two years ago I publicly recommended Doan's Kidney Pills and at this time I am glad to confirm my former statement. A member of my family was in bad shape with kidney complaint and was laid up for eight weeks. Backache was almost constant and there were severe pains through the loins. After several remedies had been tried to no avail, Doan's Kidney Pills were procured at the People's Drug Store and their use was begun. Relief soon followed and there was a remarkable improvement in every way. My advice to anyone afflicted with kidney complaint is to give Doan's Kidney Pills a trial."

For sale by all dealers. Price 50 cts. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

During the winter months, when severe colds are frequent, it is well to have handy a bottle of turpentine, camphor and sweet oil mixed to rub on to the neck and chest when a severe cold is contracted. Well Cured.

During a recent visit of a well known circus to an Ohio town there appeared in the sideshow a countryman of a decidedly inquisitive turn. He made the round of the freaks, to each of whom he put many questions. Finally

"DID YOU EVER HAVE THE DROPSY?" he came up to the living skeleton, in whom he seemed especially interested. "Did you ever have the dropsy?" he asked the man of skin and bones. "Well, hardly," said the freak. "Why do you ask me such a silly question?" "I just thought that if you ever had been troubled with the dropsy," explained the rural one, "you was shore the best cured man I ever see."—New York Herald.

The pruning of the sugar orchard maple may be done any time from the middle of July up to the 1st of December, but if done in the other months of the year the trees will suffer much from loss of sap. The worst time in all the year to do the job is in the latter part of February, just before the sap starts or while it is flowing heavily.

A chap down in Florida is out after suckers with a vengeance, claiming to send to any inquirer the secret of controlling sex in farm animals in return for a money order or draft for \$2. The greatest medical experts and anatomists have been and are today absolutely in the dark in regard to the influences which determine sex, one secret nature has withheld from the prying human intelligence.

The husking records have gone glimmering again. Bert Van Houten of Fremont county, Ia., excelling all previous records about ten days ago by husking 254 bushels and 50 pounds in ten hours. In a contest some two weeks prior to this performance he was defeated in a competitive husking contest in which he husked 230 and his rival 231 bushels. The new record also surpasses by three bushels the record made by Claude Wilson of Silver City, Ia.

CHARGE PLOT IN FREE SUGAR BILL

Minority Report Scores Democrats and the Trust.

Washington, March 7.—Proposing to rename the Democratic free sugar bill "an act to surrender revenue, destroy competition and create monopoly," the Republicans of the ways and means committee of the house submitted a minority report on the Underwood bill which will be the next of the tariff bills to be considered by the house.

The report charges that there is a union between the sugar trust and the Democratic party and that the free sugar measure is designed to catch the votes of the consumer and will, in time, deliver the consumer to the mercy of the sugar trust.

The report reviews in the main the dissenting views of the Republican members of the Hardwick sugar trust investigating committee. It gives credit to the beet sugar industry for holding down the price of sugar during the advance of last year and predicts that such a safeguard would be destroyed if the beet sugar men were driven out of business.

The report asserts that the Underwood free sugar bill is "the boldest attempt in the history of our republic to surrender an independent and growing industry to foreign importers," and that it is "against the domestic sugar producers and solely in the interest of the refiners of imported raw sugar, commonly known as the sugar trust."

The report asserts that the sugar beet growing industry would be killed if the beet refiners were forced to suspend by tariff legislation. There are 12,000 farmers engaged in growing sugar beets, the report declares, and it comments that "the Democratic party says to these farmers, 'We propose to make you pay for this reduction in the tariff on sugar.'"

COULDN'T BLUFF THE EDITOR.

Up on a limb a gobbler sat,
High in a walnut tree,
And gobbled till his face got red,
"Oh, woe-oh, woe is me!"

He was a sly old bird, that turk,
And had in some fowl way
Escaped the turkey massacre
Wreaked for Thanksgiving day.

But now he felt his doom was sealed—
The preacher had been round
And asked the farmer o'er and o'er
Where turkeys might be found.

"There, take that bird!" the farmer cried.
"Consider him a gift.
You'll find him tender, big and fat
When you his carcass lift."

But that old turk was awful slick,
For when he got to town
He played right off that he was sick
And hung his head way down.

"Alas," the hungry preacher cried,
"My turkey sure will die!"
An editor looked o'er the fence
And gave him this reply:

"Oh, no, my chicken eating friend!
That whole thing is a bluff.
If you read our week's 'Poultry Notes'
You would be up to snuff."

With that he pulled the old turk's snoot.
The turk let loose the yell:
"Oh, who could bluff an editor?
Run for the ax! I'm well!"

But was that ed. invited round
To feast on turkey breast?
Oh, no! That preacher just forgot—
Forgot him, like the rest.

Between meridians 700 degrees and 120 degrees, which includes practically all of the dry country of the western half of the United States, it is estimated that there are 300,000,000 acres of fertile land capable of producing a crop of twenty bushels per acre of winter wheat every other year. This means that if one-third of this vast area were producing on the above basis the increase in the country's wheat crop as a result would be 1,000,000,000 bushels yearly, which is a good deal more wheat than the country has ever produced in a single crop.

CORNISH VERSUS THE FIGHTING GAME.

If all coons do look alike, all Games are not just Games, as a glance at our roster cuts will show. The fighting Game dates back a thousand years before the Christian era. He has licked everything in sight down through the ages, but the Indian Game is not a prancing poultry pugilist, but a big, juicy market fowl, "heavy as lead."

His looks are deceiving, you'll be slow at believing, but the cocker pictured here weighs just eight pounds. At first this breed was called Indian Game, but the bloody odium of that name Game so affected its fame through the popular mistake as to its identity that the two varieties were

Photo by C. M. Barnitz.

WHITE CORNISH COCKEREL.

renamed Cornish and White Indians. Then, the name Indian seeming a misnomer for a fowl that originated in Cornwall, England, the last standard again changed the breed name to Cornish Fowl, now consisting of three varieties, Dark, White and White Laced Red, the latter new variety weighing one pound less than the others.

It is claimed the Dark Cornish is a mixture of Lord Derby Black Breasted Red Game, Red Aseel and Sumatra Game, and the White is a sport from this combination, though other experts declare the White is from a cross of White Game and Malay.

We are not here to wrangle over rooster history, but mainly to remove

FIGHTING GAMECOCK.

the impression that this valuable variety belongs to the fighting Game class.

The Cornish cut no figure in the rooster pugilistic world. There is as great a difference between them and the Game cock as between a heavy draft horse and a trotter.

Striking points of this breed are the peach, short neck, wide back, short, drooping tail, deep, broad breast, large thighs, thick legs, set very wide apart. They are constructed to carry a very large proportion of fine fibered meat, and especially good in crosses for capons, and the hens are fair layers.

DON'TS

Don't mind a blister. Success and blisters are twin sisters.
Don't expect eggs where roosters rough house. A fray, no lay, no pay.

ANNUAL CONTEST

The annual contest of the Pennsylvania Inter Collegiate Oratorical Union will be held in Brua Chapel on March 14 at 8 p. m. Swarthmore, Lafayette, Muhlenburg, Franklin and Marshall, Ursinus and Gettysburg are the colleges which compose the union and each will be represented by their best orator. Last year the first prize was won by Swarthmore while the second prize went to Muhlenburg.
